

# PYROTECHNICS EFFECTS

Offers You A New Spectrum Of Spectacular Visual Effects

## THEATRICAL FLASH

£3.50

Gives a brilliant white flash and a 'mushroom cloud' effect of pure white smoke.

## COLOURED FLASH

£3.50

Similar to the Theatrical Flash effect but with Red or Green smoke.

## COLOURED STARS

£3.50

Adds an extra dimension of Silver, Red, Green, Amber or Gold crackling sparks to the Theatrical Flash effect.

## COLOURED FIRE

£4.00

This gives a coloured flare effect of about 6-8 seconds accompanied by white smoke. Available in Red, White, Mauve, Blue or Green.

## COLOURED SMOKE

£4.00

These cartridges produce a chimney of thick smoke, the colours are very pure and dense. Available in Red, White, Blue, Green or Yellow.

## SILVER JETS

£5.00

An instantaneous bright white effect with very little smoke. Reaches approximately 20 feet with no fall-out (i.e. the effect disappears before it reaches the floor).

## COLOURED JETS

£5.00

This effect is the same as a Silver Jet except produces bright Red, Green or Amber flash.

## STREAMERS

£5.50

A truly spectacular effect! When ignited, there is a medium volume report and approximately 75 mini multi-coloured streamers are projected about 20 feet into the air, very little smoke is produced.

## WHISTLER

£5.50

Produces a loud whistle / screaming noise which lasts for approximately 7 seconds.

## GERBS

£6.50

One of the most visually exciting effects currently available produces a spray of bright sparks that reaches 1.5 meters and lasts for approximately 7 seconds. This effect is now available in a choice of colours including White, Green, Red, Amber or Gold spray.

## LARGE STREAMERS

£18.00

An even more spectacular effect! Contains some 350 mini multi-coloured streamers that reach a height of approximately 20-25 feet before opening and falling to the floor.

## CONFETTI

£20.00

It produces a loud report followed by a shower of confetti reaching a height of approximately 15 feet. Guaranteed to upset the cleaners.

**\*Pyrotechnics effects comply with Local Fire Authority requirements\***

All effects are designed to be used indoors and we recommend that you must inform the venue that these effects are able to be used on their premises. These effects will not set off heat sensitive fire alarms but will set off smoke sensitive fire alarms.
